Work Experience

Xiteb (PVT) Ltd *Colombo, Sri Lanka*

Software Engineer *October 2024 - Present*

- Designed and developed scalable, high-performance web applications using PHP and Laravel.
- Analyzed and resolved application bugs, enhancing functionality and user experience.
- Conducted unit, integration, and regression testing to maintain code quality and stability.
- Ensured clean, maintainable code through adherence to best practices and peer code reviews.
- Worked with cross-functional teams, documenting processes and code for team-wide knowledge sharing.

Stephen Innovations (PVT) Ltd *Negombo, Sri Lanka*

Trainee Associate Software Engineer *May 2024 - October 2024*

- Managed a group of 5 intern developers providing guidance when necessary and doing PR reviews for their codes in GitHub
- Incorporated the use of test-driven development effectively that reduced time in troubleshooting bugs by 10%
- Maintaining 5 projects deployed into production while pushing bug fixes when needed
- Developed dynamic websites for clients using Laravel, VueJS and ReactJS that can scale up to on average of 500-1000 users
- Concurrently handling 2 full stack and 1 frontend development projects
- Documentation of the progress on every requirement that comes through JIRA or Trello

Intern - Software Engineer *Oct 2023 - May 2024*

- Engaged in full-stack development, leveraging proficiency in PHP-Laravel to architect robust solutions combining both front-end and back-end components.
- Demonstrated proficiency in identifying and resolving bugs in live projects and developmental stages across multiple projects, ensuring seamless operation and client satisfaction.
- Collaborating with experienced developers for feature development and bug fixing

Fennix Global (PVT) Ltd *Colombo, Sri Lanka*

Junior Web Developer *Dec 2022 - Oct 2023*

- Maintaining websites, this includes deploying changes to the website based on customer requirements and monitoring the backend for the applications
- Writing and testing PHP codes and deploying them to the servers
- Troubleshooting products and databases to provide immediate resolutions

Trainee - Web Developer *Jun 2022 - Dec 2022*

- Assisting the team with bug fixes
- Creating websites using HTML, CSS and JavaScript
- Writing PHP scripts for the backend

Makers Pharma (PVT) Ltd *Negombo, Sri Lanka*

IT Administrator Assistant *Aug 2021 - Mar 2022*

- Assisting with the asset management for the entire organization
- Providing technical support and assistance to the members of the organization
- Installing, configuring, and maintaining software applications, operating systems, and hardware devices.
